## Profile

Front-End Developer with 5+ years of experience in building mobile and web applications for industries like banking, automotive, government, transportation, real estate, and education. I specialize in creating user-friendly and high-performing applications, including seamless payment gateway integrations. I work closely with clients to understand their needs, solve problems, and deliver effective solutions. My goal is to make technology simple and impactful for users.

## Technical Skills

- **Frontend Development:** Next.js, React, CPanel
- **State Management:** BLoC, GetX (Flutter), Redux Toolkit (Web) for efficient application architecture.
- **Push Notifications:** Firebase Cloud Messaging (FCM) & Apple Push Notification (APN).
- **WebRTC** for real-time communication and video streaming.
- **Version Control:** Git, SVN.
- **CI/CD & DevOps:** Bitbucket, Jenkins, for automated deployments.
- **Payment** Gateways Integration
- **UI Frameworks & Styling:** HTML5, CSS3, SCSS, Bootstrap, Prime-UI, Material-UI, Tailwind CSS.
- **App Deployment:** Xcode, Google Play Store, Apple App Store.
- **Backend Technologies:** ASP.NET Core & Nextjs.
- Proficient in **Linux, macOS, and Windows** for development and deployment environments.
- **Project Management & Issue Tracking:** JIRA and Monday.com.

## Experience
